

Alex Grigorov

Operations & client success · high-volume coordination · systems builder

Near Sofia, Bulgaria · Open to remote

contact@alex-grigorov.com LinkedIn GitHub Telegram: @alexgrigorov12

SUMMARY

Performance-driven operations and client-success specialist with three years in high-volume dispatch and live account coordination—real-time updates, escalations, multi-channel communication, and accurate records across dashboards and partner systems. Built and deployed an internal operations hub and driver mobile app (API integrations, notifications, workflows) using AI-assisted development. Fluent English; based near Sofia, Bulgaria. Seeking remote roles in account management, retention, customer success, CRM operations, logistics, and fast-paced remote teams—including crypto-adjacent environments.

SKILLS

Client & account operations: Account coordination & follow-through · Escalation handling & issue resolution · High-touch phone, email & messaging · Data hygiene across platforms · Retention-minded service under SLA pressure

Platforms & systems: HubSpot CRM (hands-on practice; certification in progress) · Logistics TMS / GPS / ELD (Sylectus, Samsara) · Google Workspace · Excel (sort/filter, lookups) · Telegram & Discord for remote comms · AI-assisted build: Next.js, React, TypeScript, APIs

Professional strengths: Cross-functional coordination · Structured logging & reporting · Process improvement from the floor · Quick learner on new SaaS tools

EXPERIENCE

Operations Analyst · Logistics & Account Data · Geo Logistics LLC

Jun 2023 – Sep 2026 · Hybrid · Pernik, Bulgaria

- Analyzed live freight operations data—tracking, dashboards, and account records—for a US-based hauling operation.
- Primary point of contact for high-volume accounts; status updates, schedule changes, and route disruptions.
- Maintained accurate account and load data across internal dashboards and partner systems.

- High-touch communication via phone, email, and messaging with clients, brokers, and field operators.
- Built structured daily logs and reporting; improved handoffs between ops, management, and partners.
- Built and maintained internal operations hub and Geo Driver mobile app used in production.

Public Relations Coordinator · Workhour Ltd.

Jan 2023 – Apr 2023 · Remote · Toronto, Canada

- Managed client-facing communication assets, campaign metrics, and stakeholder reporting.
- Press releases and media materials with accuracy and visual quality.
- Targeted distribution aligned to client communication strategy.

Electrical Assembly & Quality Technician · AQ Electric AD

Jun 2022 – Nov 2022 · On-site · Pernik, Bulgaria

- Technical workflows under strict QA and production deadlines.
- Coordinated with team leads to reduce line errors and bottlenecks.
- Documented inventories and production logs with high accuracy.

Gas Station Sales & Operations · Largo International Ltd.

Mar 2018 – May 2022 · On-site · Pernik, Bulgaria

- Direct service to high daily customer volume; POS and transaction accuracy.
- Resolved on-site complaints and maintained professional service standards.
- Inventory, forecourt safety, and facility standards.

SELECTED PROJECTS

Custom operations & visibility platform (internal)

Sole builder — requirements through deployment

- Unified data from multiple systems into one workspace with role-based access.
- Notifications, pipelines-style statuses, and mobile submissions from the field.
- Delivered with AI-assisted development and production API integrations.

CRM & sales operations (HubSpot — hands-on practice)

Independent learning project

- Configured deal pipelines and stages aligned to account lifecycle.
 - Built contact lists/segments and task-tracking for follow-ups.
 - Practiced workflow automation for reminders and handoffs.
-

CERTIFICATIONS

HubSpot Sales Software & CRM — HubSpot Academy (in progress)
